## **DETAILED ACTION**

### ***Response to Amendment***

Applicants' canceled all previously examined claims 1-40, newly added claims 41-60 and did not provide arguments pertaining to the previous office action. This is a final office action.

### ***Election/Restrictions***

Newly submitted claims 41-60 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: instant independent claims pertain to configuring an external device whereas the originally presented claims pertained to an external device ordering supplies and requesting service based on thresholds. The newly added claims do not perfect the originally presented and examined invention. The newly claimed invention(s) require further search and consideration resulting in undue burden on the Examiner in response to an amendment after a non-final office action. The newly added independent claims are no longer classified to 705/26-27 and may require a search and consultation outside the elected class.

Since the Applicants received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 41-60 have

withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
